Risk management and internal supervision systems

The internal control and risk management systems related to Oriola's financial reporting aim to ensure a reasonable certainty of the reliability of the company's financial statements and financial reporting, as well as the company's compliance to legislation and generally approved accounting principles.

Financial reporting

The Board of Directors and the President and CEO have the overall responsibility for organising the internal control and risk management systems pertaining to financial reporting. The President and CEO, the members of the Group Management Team and the heads of the business units are responsible for the accounting and administration of the areas within their spheres of responsibility complying with legislation, the Group's operating principles, and the guidelines and instructions issued by Oriola's Board of Directors. The organising and leading of the financial reporting in the Group has been centralized under the subordination of the CFO.

Oriola Group follows the International Financial Reporting Standards (IFRS) approved for application within the European Union. Instructions and accountancy principles for financial reporting are collected in an accounting manual that is updated as soon as standards change, as well as in the financial department's instructions that are followed in all Group companies. Group accounting is responsible for following and keeping up to date with financial statement standards, upholding the principles concerning financial reporting and distributing information about these to the business units.

Measurement and follow-up

The performance of the Group is monitored in the Group Management Team with monthly reports as well as in the monthly operational reviews of the business segments. The financial situation of the Group is also monitored in the meetings of the Board of Directors. The Audit Committee and the Board of Directors examine the interim reports and financial statements before their publication. Monitoring of the monthly reports also ensures the effectiveness of the internal supervision. Each business segment must ensure effective supervision of its own operations as part of Group-level internal supervision. The business segments and the Group Finance organisation are responsible for the evaluation of the processes covering financial reporting. The evaluations must contain balances and analyses, which are compared with budgets, assessments and various economic indicators.

Internal control

Internal control forms an essential part of the company's governance and management systems. It covers all of the Group's functions and organisational levels. The purpose of internal control is to ensure a sufficient certainty that the company will be able to carry out its strategy. Internal control is not a separate process but a procedural measure covering all Group-wide operating principles, guidelines and systems.

The purpose of Oriola's internal supervision system is to support the implementation of the Group strategy and to ensure that rules and regulations are observed. The company's internal supervision is based on a Group structure, in which the Group's operations are organised into Business Areas and Group functions. Group functions issue Group-level guidelines laying down the operational framework and the persons responsible for the process. The guidelines cover such areas as accounting, reporting, financing, investments and business principles.

The guidelines aim to ensure that all risks connected to the achievement of the company's objectives can be identified and prevented. The control measures cover all Group levels and functions. All new instructions and guidelines are published on the company's internal website and staff members can provide feedback to the management and anonymously report any questionable activities through the company intranet.

Risk management

The Board of Directors of Oriola approves the company's risk management policy in which the risk management operating model, principles, responsibilities and reporting are specified. The Board guides and supervises the planning and implementation of the risk management. The Board-appointed Audit Committee supervises risk management in the Group.

Oriola has specified the company's risk management model, principles, organization and process in the Risk management policy. The Group's risk management seeks to identify, measure and manage risks that may have an adverse or beneficial impact on Oriola's operations and achievement of the set goals. Additionally the Group has a Code of conduct policy and a Treasury policy covering

compliance and financial risks. Oriola's risks are classified as strategic, operational and financial. Risk assessment and management are key elements in the strategic planning, operations and daily decision making in the company.

Risk management and the most significant risks are described on the company's website at www.oriola.com.

Internal audit

Oriola uses an outsourced internal audit function for the purpose of fulfilling its internal audit requirements. The outsourced internal audit function is an independent and objective assurance activity reporting directly to the Audit Committee of the Board of Directors. The internal audit assignments are carried out on the basis of an Internal Audit Charter approved by the Board of Directors as well as an Internal Audit Plan annually reviewed and approved by the Audit Committee.

External audit

The company has one auditor, which must be a firm of authorised public accountants. The auditor is elected annually by the Annual General Meeting for a term that expires at the end of the next Annual General Meeting following the election. The task of the auditor is to audit the consolidated financial statements, the financial statements of the parent company, the accounting of the Group and the parent company and the administration of the parent company. The company's auditor submits the auditors' report to the shareholders in connection with the annual financial statements, as required by law, and submits regular reports on its observations to the Board's Audit Committee.

The Board of Directors and the Audit Committee are responsible for monitoring the independence of the auditor. For this reason the company has implemented a policy covering the provision of non-audit services by the elected auditors.

The Annual General Meeting of Oriola held on 14 March 2017 re-elected PricewaterhouseCoopers Oy, a firm of authorised public accountants, as the company's auditor, with Ylva Eriksson, APA, as the principal auditor. The fees for the statutory audit paid to the auditing firm PricewaterhouseCoopers Oy in 2017 totalled EUR 363,137. In addition, EUR 224,798 was paid for other consultation provided to Group companies.

Consequently, all persons with inside information will be included in event-based insider list for relevant insider projects. Oriola instructs the persons entered in the event-based insider list on their obligations and any possible consequences.
